Five Trends Shaping the Future of Work: We were excited to have Dr. Bob Nelson, best-selling management and employee author, return for an insightful speech on the five trends that are shaping the future of work! At this event, Nelson defined these five trends as 1) Growing shortage of skilled workers; 2) Rise of the Millennials; 3) Increase of contingent workers; 4) Evolving role of virtual employees; 5) Globalization of the labor market. It is important to understand the impact of each trend as we will soon enter the workplace! Attendees were also given a copy of his book, *1501 Ways to Reward Employees* along with a SHRM bookmark!
